

Pittaluga Static Mixers

X, XL & H

for turbulent flow conditions

Excellent mixing power!
Outstanding price/quality ratio.

FEATURES

- **No moving parts: no maintenance.**
- **Excellent mixing performance even with wide throughput ranges.**
- **XL is the ideal geometry for plugging systems.**

TYPICAL APPLICATIONS

- **Polyelectrolites dilution (Polymers make-up units).**
- **Admixing of flocculants or polyelectrolites to water and sludges.**
- **pH adjustment.**
- **Blending of miscibile liquids.**
- **Mixing additives in fuel oils and gasolines.**

MATERIALS & EXECUTIONS

- **Carbon steel, Stainless Steel, Super Alloys, PVC, PP, FRP, PTFE and PVDF.**
- **Welded or removable mixing elements.**
- **Flanges according to DIN, ANSI, Tri-Clamp, SMS, DIN 11851.**

X, XL, H-EN 2005 Rev. 1
